

GLEN ROCK HIGH SCHOOL

FEBRUARY 2018

CITIZEN OF THE MONTH

The Citizen of the Month is a caring student who has gone above and beyond the usual concern for another student. This young man is in Period 8 Advanced Biology. He noticed that there was a student after period 8 who was standing on the sidewalk, ready to be picked up, as if the school day was over. The student looked like he was waiting for his parent to pick him up. He realized that the student thought it was the end of the school day, and he dropped everything to run outside to tell the student that it wasn't the end of the day and he should come back in. He did this out of concern that the student would be reprimanded for cutting a class. The student thanked him and told him that he actually thought it was the end of the day and he forgot that he had a last period class.

Congratulations to the March 2018 Citizen of the Month for taking action to aid a fellow student.
